

BU APSCUF Membership & Special Services Committee

The purpose of the Membership & Special Services Committee is to 1. Recruit faculty members to become full APSCUF members, 2. Promote campus-wide faculty engagement in APSCUF, and 3. Keep faculty updated on APSCUF Special Service program. The main activity of the committee is an information session during the New Faculty Orientation. This session ensures that new hires are made aware of the APSCUF benefits provided to all faculty, as well as the additional incentives provided to full APSCUF members. As the first contact between APSCUF and new hires, the committee promotes an open dialogue and discussion to help all faculty feel welcome to the university community and APSCUF.

The Membership & Special Services Committee typically meets two to three times per calendar year. These include summer meetings in preparation for the New Faculty Orientation. Committee members also meet with Fair Share faculty throughout the academic year to discuss the benefits of APSCUF membership to the individual and the overall campus community. The committee is always looking for energetic, passionate, and committed faculty members who would like to promote membership and engagement in APSCUF.
