PA Faculty Health & Welfare Fund (Part-Time)

Effective: 02/01/2019

Group Number: 1324

National Vision Administrators, L.L.C. (NVA) has been contracted by your group to offer a comprehensive vision care plan to you and your eligible family members. Founded in 1979, NVA manages vision benefit services for approximately seven (7) million covered lives nationally.

How Your Vision Care Program Works

For your convenience, at the start of the program, you will receive two identification cards with participating providers in your zip code area listed on the back.

When scheduling your comprehensive eye exam, please notify the NVA participating provider of your choice that your program is administered by NVA. Then at the time of your appointment, simply present your NVA identification card; the provider will inform you of your status prior to rendering any services. Discounted costs are the responsibility of the member at time of service. *(Be sure to inform the provider of your medical history and any prescription or over-the-counter (OTC) medications you may be taking.)*

Eligibility

Eligible members and dependents are entitled to receive one (1) vision examination once every calendar year. There is no limit to the number of times you or your eligible dependent(s) may use your identification card to obtain discounts on

eyewear. **Please Note:** *This card cannot be used in conjunction with any other offer (including, but not limited to, coupons, special promotions, etc.).*
